Troops in Small Bands are Ranging Through Interior Provinces Acting as Banditti—General Otis Sizes Up the Situation in a Cable Dispatch to the War Department Today—Aguinaldo Fled Westward to Escape Lawton's Troop.

Washington, Nov. 24.—[Special Telegram]—The practical end of the Filipino insurrection is evidently what Gen. Otis is endeavoring to indicate in the following cable received this morning: "Claims by the insurgents to an independent government can no longer be made under any fiction; its treasurer, secretary, of the interior and president of the congress are in our hands; its president and remaining cabinet are in hiding, evident."

ly in the central Luzon provinces; its general and troops are in small bands, scattered through those provinces acting as banditti or dispersed playing the role of 'amigos' with arms concealed. "The indications are that Aguinaldo did not escape through the lines of Lawton or Wheaton, but fled westward from the Bayombong railroad station. "Telegraphic communication to Dagupan will probably be established, probably from San Fabian today. By relaying nine miles of track, material at hand, railroad communication with that point will be re-established."

SANTA BARBARA AND COBATUAN

Two More Filipino Strongholds Taken by American Troops

Washington, Nov. 24.—[Special Telegram]—The following advices were also received today from Gen. Otis: "Gen. Hughes at Iloilo, reports that the enemy has been driven back in the mountains and the insurgent capital of Cobatuan is captured. The only serious action was that of Col. Carpenter at Pavia. The total casualties were five killed or since died of wounds, twenty-seven wounded, ten Filipinos captured and eighteen cannon, six rifles and a quantity of ammunition taken. Col. Enemie's casualties are not stated."

In a third dispatch Gen. Otis says that Col. Carpenter is pursuing the insurgents north and that he had taken Santa Barbara, an insurgent stronghold. He adds that it is believed that the Filipino loss is very heavy. Apparently the Nizayans are friendly and are not taking an active part. The force of the enemy consists of two thousand Tagalos.

TWO GERMANS TOOK REVENGE

Word reaches the city that Deputy Game Warden S. D. Fisher, formerly of the town of Center, and Irwin Howard of Brodhead were each fined \$150 at Brodhead for illegally securing small trees in the county. A Gorgeous Bicycle.

A gorgeous bicycle has just been sent from France to an Indian rajah, the parts which on an ordinary machine are nickel plated being made of gold. Even the spokes are cased with gold, while the gold-cased rims are studded alternately with turquoises and rubies. A scarlet cloth held down with jewels covers the saddle.

PRESIDENT IS CONDEMNED.

Knights of Labor Oppose McKinley's Policy on Various Questions.

Boston, Mass., Nov. 24.—The general assembly of the Knights of Labor concluded its business Thursday afternoon. Resolutions were adopted condemning President McKinley's policy on the trust, imperialism and labor questions, declaring him to be the enemy of labor and asking labor to use its influence and votes against him in the coming election. Resolutions were also adopted denouncing national banks and favoring the abolition of indirect taxation, the abolition of contract system on all public works, the unlimited coinage of silver at the present legal ratio, the establishment of postal deposit and savings banks at every postoffice, and the election of president, vice-president, Supreme court judges and United States senators by the direct vote of the people.

BAINES CONTINUES LARGE PURCHASES

THOUSAND EIGHT HUNDRED CASES BOUGHT.

Greater Portion Has Been Gathered in Lane County—Other Large Deals of a Local Interest—Rumrill Shipped Fourteen Cars This Week to Eastern Purchasers.

In speaking of the local tobacco market the Farm and Home issue of this week says:

Nearly all the local dealers are riding for the '99. They are not running horses or rushing things, but are buying in a matter-of-fact business way; as if they wanted the tobacco.

Not only the dealers of this market, but those of nearly every market in the state are riding, and the quantity they are picking up each day is no small amount.

Prices range from 4 to 6 cents for the cheaper grades and from 6 to 9c for the better grades, the last figure being but rarely paid.

This is one of the years when the farmer gets a good price, and sure enough he earns it and well earns it, too.

We estimate that nearly one-half of the '99 has been contracted for, and still some of the most extensive dealers have hardly begun buying.

Moist weather this week brought the hanging tobacco into case and many have taken down a portion of their crop and early deliveries will soon begin.

Around the warehouses the old goods are receiving a fair amount of attention. During the past few weeks F. S. Baines has picked up about 1,800 cases of '98 of the farmers in southern Dane county; I. A. Ryan sold 50 cases of '98.

G. H. Rumrill shipped 14 cars this week.

Large shipments of tobacco belonging to the American Tobacco Co., purchased some months ago, have been prepared by local packers.

J. A. Ryan sampled 400 cases of '98 this week. It looks good.

Among our visitors this week were: Max Bamberger of Philadelphia; Mr. Yocum of Yocum Bros., Reading; Mr. Hyle of Hyle & Son, Pittsburg; and C. D. Child, C. F. Mabbett and T. B. Earle of Edgerton.

Old Leaf Moving Satisfactorily

This week's issue of the Wisconsin Tobacco Reporter says:

There has been a deal more earnestness thrown into the movement of the new crop this week than for some time back. Several new buyers have joined the forces in the field and from what we can gather there is more tobacco being contracted for than most people suspect.

Old leaf, especially '98 stock, is moving satisfactorily with packers. A big block went to manufacturers in New York last week and a brisk inquiry in local markets is noticeable. The largest transaction coming to notice is the purchase of the Bomberger firm, among them the sale of the '98 packing of O. C. Lee, some '900cs. The Heggard packing at Orfordville, 2500cs, has been sold to L. B. Carle & Son. C. L. Oulton disposed of 2000cs of '98 during the week.

Ten years ago a suit was commenced in the French courts for the recovery of the property and not until last week was a favorable decision reached. MAIL BAG USED AS A HEARSE

Ashes of Milwaukee Woman Sent Home From Germany by Post

Milwaukee, Wis., Nov. 24.—So far as known, for the first time in the United States mails, have been used as a hearse. There was received at the postoffice here today a box which came from Heidelberg, Germany, and which contained the ashes of Mrs. Maria Melms, wife of the former Milwaukee brewer, Charles T. Melms.

This box was about thirteen inches long and seven inches wide and deep, was of wood and metal lined. It was addressed to Fred Strauss, superintendent of the William Becker Leather Company, who was a son-in-law of Mrs. Melms.

This strange funeral procession only cost 86 cents for carriage. There was 50 cents' worth of postage stamps pasted on the box and 36 cents more was charged here for overweight. The box was marked "Menschen asche," human ashes, and "of no value."

A Great Lake.

In his article on "Climbs in the Andes in 1898," in the Alpine Journal, Sir Martin Conway tells us that Lake Titicaca is fourteen times as large as the lake of Geneva and lies at an altitude of 12,600 feet above the level of the sea. A mountain railway finds its way up to this great lake, and the passengers are transferred to a steamboat if they wish to cross Titicaca.

NEW SCHEME TO UNSEAT ROBERTS

WILL OBJECT TO MORMON'S TAKING THE OATH.

Program Now Being Hatched by Members of Congress Who Are Bound to Keep Utah's Polygamous Elder Out of His Seat in the Lower House.

Washington, Nov. 24.—Brigham H. Roberts, the congressman from Utah, may not be allowed to take his seat in the house when that body assembles one week from next Monday. Plans are now afoot to prevent the gentleman from Utah from taking the oath and thus becoming a full-fledged member of the house. Once he has taken the oath a two-thirds vote would be required to expel him, and the men who are determined to keep him or put him out of the house realize that it would be almost impossible to command two-thirds for such a radical motion. They think, therefore, the best thing they can do is to keep him from being sworn in, and they have put their heads together with that object in view.

BRIGHAM H. ROBERTS.

One week from next Monday the house will be called to order at noon by the clerk of the last house. He will, as directed by law, submit a roll of prima facie members-elect of the present house. Upon that roll is the name of Brigham H. Roberts, who appears to be duly elected from Utah. His name being upon the clerk's roll he will be entitled to take part in the election of a speaker of the house, and up to this point it is not within the power of any one to interfere with him.

When Utah is called, and Mr. Roberts appears before the speaker's rostrum with his right hand uplifted, ready to take the oath to "support and defend the Constitution of the United States against all enemies, foreign and domestic," the critical moment will be at hand. Then a republican member is expected to rise to a question of privilege, to be recognized by the speaker, and to object to Mr. Roberts taking the oath. The objection will be sustained, Mr. Roberts will be asked to stand aside, the remainder of the members will then be sworn in, and the house will then proceed to perfect its organization. But Brigham H. Roberts of Utah will not be a member of it.

This is the programme now being hatched by members who say they are determined to keep Roberts out of the seat to which he was elected by the people of his state, at all hazards.

MR. HOAR'S CHANGE OF VIEW

Discovery That He Was for Territorial Expansion Four Years Ago.

Washington, D. C., Nov. 24.—A clerk at the capitol, according to a statement published in the Washington Post, has discovered a speech delivered by Senator Hoar at Plymouth, Mass., on December 21, 1895, in which he took a stand on expansion which is in marked contrast to his present attitude. Part of the speech quoted is as follows: "The sons of the Pilgrim have crossed the Mississippi and possess the shores of the Pacific. The tree our fathers set covered at first a little space by the sea-side. It has spread along the lakes. It has girdled the gulf. It has spanned the Mississippi. It has covered the prairie and the plain. The sweep of its lofty arches rises over the Rocky mountains. Its sturdy growth shelters the frozen region of the northwest. Its boughs hang over the Pacific. And in time—in good time—it will send its roots beneath the waves and receive under its vast canopy the islands of the sea."

The Youthful Conscience.

One day, says a writer in the Boston Transcript, the mother of a 10-year-old boy gave him two slices of buttered bread, telling him to give one of them to his little sister. He carried out the order. That night when he went to bed he was evidently disturbed in his mind and remorseful about something, and his mother questioned him in a way to bring out the truth. "I—I wasn't nice to Peggy about that bread and butter," he owned. "Why?" asked his mother; "did you take the bigger piece?" "No," he answered. "Hers was a little bigger than my piece was, but mine was a good deal butterier!"

DEWEY WILL VISIT CHICAGO

He Promises to Visit the Windy City on May 1, Next.

Washington, D. C. Nov. 24.—"Do you know," said Admiral Dewey last night, "I have wanted for a long time to celebrate the first of May somewhere, and I know of no place that would suit me better than Chicago. No city in the country has treated me more kindly than Chicago. When I was in Manila I got nice messages from there and later I have received various remembrances, all of which have endeared the city in my memory."

"I received today the telegram from the mayor of Chicago supplementing the letter of the Dewey committee of that city, inviting me to visit there on the 1st of May. You may say in your dispatches that all things being equal and barring any unlooked for circumstances, I shall accept the invitation to visit the city on the 1st of May."

BLOCKED THE STREETS

Great Crowd Gathers at Paterson to View the Remains of Vice Pres. Hobart.

Paterson, N. J., Nov. 24.—[Special Telegram]—At noon today all the streets surrounding the Hobart home were blocked by a dense crowd of citizens who wanted to take advantage of the chance to review the remains of the late vice president lying in state in Carroll hall. Although the hours from two until six o'clock had been set aside for this purpose, the people began gathering as early as 9 o'clock this morning. One hundred and fifty member of congress will attend the funeral tomorrow. The presence of a large crowd today is an evidence of the high esteem Mr. Hobart enjoyed among his townspeople.

FORECAST OF WEATHER

AMERICA'S DEMANDS IN CHINA.

European Powers Ask an Explanation and Get It from the United States.

Washington, Nov. 24.—France, Russia, Germany and the other powers controlling treaty ports on the coast of China have asked the United States to state explicitly the extent of its demand for written assurances that the "open door" be maintained in China. The notes for information were received by the state department a few days ago, and have been answered. The department is now awaiting the action of the powers and is firm in the belief that written assurances will be received. The principal American demands are:

First—That there shall be no coercion of China which would prevent her from living up to her treaty obligations with the United States.

Second—That the written guaranties be of such a character that they shall be as effective, permanent and morally binding as a treaty and shall continue indefinitely.

REJECTED GOEBEL'S PLEA.

Louisville Vote Is Accepted—State Board to Pass on the Figures.

Louisville, Ky., Nov. 24.—The county election commissioners agreed to certify to the vote of Louisville, voting unanimously to reject the motion of Attorney Hargis and Young of the Goebel democrats. Certificates of election were issued to all the city and county officers except in one district. While the vote for the state officers has been certified to, several affidavits were made part of the record. These affidavits declare that the election held in Louisville was not legal and that the voters were intimidated by the state militia. Fraud is also charged by the Goebel followers, in spite of the fact that the Goebelites had entire control of the election machinery. It is believed here now that the state board will not attempt to throw out any of the votes certified to by the county commissioners. Certificates of election have been received by the secretary of state from every county in the state except two—Jefferson and Elliott. These will reach Frankfort before Saturday.

POSTOFFICE WILL BE CLOSED

Tomorrow From 2 to 4 O'clock During Hobart's Funeral.

In accordance with an order from the postmaster general, the Janesville postoffice will be closed from 2 to 4 Saturday afternoon, the hours when the funeral of vice President Hobart will take place.

Proper Quantity of Food.

Dr. Pavy, one of the most eminent authorities upon diet, says that the average man in a state of absolute rest can live on sixteen ounces of food a day, a man doing ordinary light work can live on twenty-five ounces, and a man doing laborious work needs from twenty-six to thirty ounces. This is food absolutely free from water, and it must be remembered that everything we eat contains more or less water, so that from forty-eight to sixty ounces of ordinary food are necessary according to the work in which a man is engaged.

DETAILS OF MILTON BANK ROBBERY

BANK WAS INSURED AND WILL NOT LOSE ANYTHING.

State Bank Examiner Puts in His Appearance—Union Thanksgiving Services Will be Held in Congregational Church—Milton News and Notes.

THE GAZETTE AGENCY
W. W. CLARK, Manager
Milton, Wis., Nov. 24, 1899.

This village was startled Thursday morning by the announcement that the Bank of Milton had been burglarized and that F. B. Ballard's horse, harness and wagon had been stolen. The entrance into the bank was made through the south window, the glass being neatly cut out to enable the burglars to raise the window fastening. The vault door was neatly drilled, the drill hole threaded, and a tap screwed against the lock forcing it off. The safe, which is one of the best and provided with a time lock, was not tampered with to all appearances, which indicates that the thieves were not provided with explosives or were frightened away before attacking it. The private deposit boxes in the vault were forced open and the floor was covered with their contents.

From one of these boxes the burglars secured \$1,725 in unregistered government bonds, the property of Clark Crandall of Cartwright. Sheriff Appleby appeared on the scene early in the day and secured the numbers of the bonds with the hope that their negotiation might lead to the detection of the robbers. Some certificates of deposit were also taken from these boxes, but they are of no value to anyone, except the individuals owing them.

The burglars also secured about one hundred dollars worth of revenue stamps and less than two hundred dollars' worth of silver, nickels and coppers, belonging to the bank that was not kept in the state. We seem to need protection and those interested ought to hire a night watchman.

The bank is not likely to lose anything by the burglary as they are insured in the Des Moines, Iowa, company whose policies protect their customers against robbery. The manner in which the job was done indicates that the cracksmen were experts and there is little hope of their apprehension.

Miles Rice has been drawn as a juror in the United States district court at Madison. This is the third time and his receipts for the previous terms of service were about the same as his expenses, but he hopes for better results this time.

FITZSIMMONS KNOCKED OUT

Heavy Door of the Hotel Myers Proved His Equal

It was left to the heavy front office doors of the Hotel Myers to deal a complete knockout blow to Robert Fitzsimmons the ex-champion of fighters. Yesterday when Fitz left the hotel office he accidentally caught his left hand in the door, which closed with a bang.

The ex-champion let out a terrible blue colored oath and then with lightning speed made his way to the Peoples Drug Company store. Here J. D. King and William McCue took the ex-champion in hand and fixed him out with enough drugs and liniment to stock a country drug store.

Last evening from the stage of the Myers Grand Fitz said: "Ladies and gentlemen, I want to apologize for the poor sparring I have done tonight. I broke my hand last night and must protect myself as much as possible."

The vaudeville show connected with the Fitzsimmons performance at Myers opera house last night was first class in every respect. They were all good people from Fox and Foxie, his dog, who opened the program, to the whirling and tumbling Arabs who closed it.

ROCK RIVER CANAL SCHEME IN MOTION

DEEP WATERWAY FROM ROCKFORD TO STERLING, ILL.

Delegates From Valley Cities Met in Rockford Yesterday to Devise Ways and Means—Would Build Dams and Make Pools—Speeches Made and Officers Elected.

Rockford, Ill., Nov. 24—Formally and officially the project of making a canal of Rock river from this city to Sterling to meet the Keokuk canal feeder was inaugurated yesterday afternoon at the first meeting of the Rock River Valley Improvement association, held at the Hotel Nelson. Sixty delegates were present from the towns and cities along this stretch of the river, Sterling, Rock City, Dixon, Oregon, Byron and Rockton sending large delegations.

After the meeting had been called to order Mayor E. A. Truman of Dixon, was made temporary chairman. The first business to come up was the report of the committee of Rockford men who have been working up the project and who have visited the cities represented. W. L. Eaton of Rockford, chairman, presented the report, which covered every detail of the canal project. Following is a resume of the report:

"The building of a deep waterway across the state of Illinois, to which the commercial and political forces of the Mississippi valley and the interests of the great lakes are now committed, is expected to make a shipping channel for large craft from Chicago to the sea by way of the Mississippi and from the river system of the great lakes.

World Build Dams and Make Pools

"Can Rock river be converted to navigation by the canal barges? It has already been done. At the lower end of Rock an independent canal alongside the river stretches from its mouth on the Mississippi to the island above Milan. A six-foot dam sets back a pool of slack-water navigation ten miles on the river itself. Repeating that process four or five times above the pool made by the Sterling dam brings the arm of the Hennepin to Rockford. To give the Rock a seven-foot channel would probably require the building of at least three dams in addition to those now in the river, both the old and the new dams being provided with lockages to transfer steamers and barges from pool to pool. In this way the river level will be raised by increasing the number of slack-water pools above that at Sterling to five.

"The present plans of the government is to raise the river at Sterling nineteen feet above its natural level at the foot of the water power dam. This converts the channel into a succession of pools, some of them ten to eleven feet in length. The portions of the river which cannot be really treated in this way will require the building of a canal along the river bank. This method will, it is supposed be found necessary to the extent of three miles of canal extending down the river from just above the Rockford dam and about the same amount of independent canal around and below the dams at Oregon, Grand Detour and Dixon."

Make Speeches and Meet Officers.

A number of delegates followed the reading of the report with speeches in which the great benefit of the waterway was shown. The session closed with the election of the following officers:

President, W. L. Eaton, Rockford; secretary, Harry Washburn, Sterling; treasurer, J. D. Waterman, Rockford. The meeting adjourned to convene again at the call of the president and executive committee.

For a Memorial Hall.

Editor Gazette—Why not instead of a soldiers monument have a memorial hall? Ten thousand dollars, the amount spoken of, will build one and while it would be as much of an ornament, or more so than a monument, it would be useful to keep the records of the Posts and serve also as a museum. A large quantity of interesting matter collected from Revolutionary times down to the Spanish-American war is available and the owners would be willing to have it in a museum of the sort proposed. Now it is in private houses or in post halls. The value of the war relics will increase as time goes on. Besides this have one room for a G. A. R. hall, it won't be many years before there will be but one Post in Rock county, and that at the county seat. After the old boys are gone, other patriotic societies will look after it. Memorial slabs can be put in the hall with names of those who have died, and it seems as though it would be as appropriate and lasting as any monument. Yours Truly, E. B. H.

OFFICER BENEKE EXPLAINS

Says Night Watchmen in Janesville are Not Capable Men.

William Clough, who resides on North Main street came up town about 2 o'clock this morning looking for Officer Beneke. The officer soon went to the scene of trouble and found a man badly intoxicated. Rather than call on Night Officer Ed. Smith or P. McGinley a telephone message was sent to Chief Hogan who was soon on the scene. Officer Beneke says that the Janesville night watchmen are too nervous and incompetent to handle a drunken man and that was the reason why he summoned Chief Hogan from a sound sleep.

[LETTER TO MRS. PINKHAM NO. 64,492]

"DEAR MRS. PINKHAM—I think it is my duty to write to you expressing my sincere gratitude for the wonderful relief I have experienced by the use of Lydia E. Pinkham's Vegetable Compound. I tried different doctors, also different kinds of medicine. I would feel better at times, then would be as bad as ever.

"For eight years I was a great sufferer. I had falling of the womb and was in such misery at my monthly periods I could not work but a little before I would have to lie down. Your medicine has made a new woman of me. I can now work all day and not get tired. I thank you for what you have done for me. I shall always praise your medicine to all suffering women."

—MRS. E. E. KUHN, GERMANO, OHIO.

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound and used two packages of your Sensitive Wash, also some of the Liver Pills, and I can say that your remedies will do all that you claim for them. Before taking your remedies I was very bad with womb trouble, was nervous, had no ambition, could not sleep, and my food seemed to do me no good. Now I am well, and your medicine has cured me. I will gladly recommend your medicine to every one wherever I go."

SEVERE FIGHTING AT ILOILO.

American Loss Is Four Killed and Twenty-Five Wounded.

REBELS RESIST STUBBORNLY.

Their Retreat Now Is Toward the Extreme Northern End of the Island—Gen. MacArthur Occupies Tarlac—War Department Authorities Pleased.

Manila, Nov. 24.—Gen. Otis has received advices from Iloilo that severe fighting took place north of that city two days ago. The rebels resisted stubbornly and killed four Americans and wounded twenty-five. Three officers were among those wounded.

Col. Carpenter's column, three days before, advanced into the territory of the enemy to clear the country of rebels. A large number of small forts, the insurgents had erected skillfully, were taken. Simultaneously, Gen. Hughes' column advanced north from Jaro, to get on the flank of the enemy. Small detachments were encountered and dispersed. Eight Americans were wounded in this movement. Col. Carpenter opened with artillery at daybreak. Four of his men were wounded by the return fire. More Americans were wounded that afternoon near Panla. The Eighteenth regiment charged under fire from the artillery, and the enemy retreated.

Two companies of the Twenty-sixth regiment, garrisoning Jaro, moved through Capaz, attacking the enemy on the right flank just north of Jaro at daybreak, Nov. 21, driving them toward Col. Carpenter.

The country between Jaro and Santa Barbara is thickly entrenched, especially near Pavia. The Sixth artillery fired on the trenches and the Eighteenth regiment charged, the enemy retreating to the next trench. The Eighteenth again charged, encountering an attacking force of bolomen, who were hidden in the long grass, and who wounded several Americans.

During the afternoon of Nov. 21 the fighting was severe immediately south of Pavia, three miles north of Jaro.

The Twenty-sixth's companies returned to Jaro after the flank movement, having captured three six-pound smooth-bore cannon and a quantity of arms and ammunition.

The enemy's loss was not obtainable, but seven men were found dead in one trench.

The insurgents are falling back on Santa Barbara, which, it is expected, Gen. Hughes has attacked before this.

Flight of Aguinaldo.

Manila, Nov. 24.—A Spanish corporal captured by the Filipinos has arrived here from Tarlac. He says he saw Aguinaldo, accompanied by a prominent leader and fifteen men, arrive at Bayombong during the night of Nov. 13, hatless, his clothes torn and spattered with mud, and his horse exhausted. Aguinaldo, it appears, rested a short time, seemed anxious, consulted with his companions and the villagers as to the nature of the roads, secured fresh horses and proceeded immediately toward Mangatarem, in Pangasinan province, west of Bayombong. The corporal tells a straight story, giving minute details. He is convinced he is not mistaken, having seen Aguinaldo several times during recent months. Aguinaldo, it appears, would have had time to leave Bayombong Nov. 13 and pass through Gen. Wheaton's lines Nov. 17.

MANILA TROOPS ARE ADVANCING.

Pushing Forward from Several Directions Toward Insurgent Bands.

Manila, Nov. 24.—Communication with Gen. MacArthur has been reopened, after a day's break. He has occupied several small towns south of Dagupan, where he is establishing civil government. Lieut.-Col. Howze's six companies of the Thirty-fourth volunteer infantry occupy Dagupan.

Gen. Lawton's infantry is closing in. The signal corps men are trying to push a wire from Dagupan to San Fabian, to connect with Gen. Wheaton. They are also building a wire to Tayug to connect with Gen. Lawton.

Gen. Wheeler has started on a reconnaissance north of Angeles.

The transports Tartar and Newport have arrived. All on board are well.

Gratification at Washington.

Washington, Nov. 24.—No dispatches from Gen. Otis concerning the military situation in the island of Luzon were received by the war department Thursday. Press dispatches from Manila saying that Aguinaldo was supposed to be making for Ilocos caused interest and gratification among the war department officials. There is a province of South Ilocos and a province of North Ilocos, but it is supposed that the former is meant, as that is directly north of San Fernando, where Aguinaldo was last known definitely to be. The province of North Ilocos is at the extreme northwestern end of the island of Luzon. There is no town called Ilocos, so the officials feel confident that South Ilocos province was meant.

This information indicates that Aguinaldo is sticking closely to the west coast, and has not struck eastward toward Bayombong. There is a good road that follows the west coast to the northernmost end of the island, and Aguinaldo has probably found it to his advantage to keep to this. He may be seeking a chance to escape from the island by means of some vessel. The west coast is being patrolled by American war vessels.

Trouble Ahead.

"Well, old man," said the sporting reporter, "anything exciting to be pulled off soon?"

"Nothing that I know of, except my porous plaster, young man," replied the sporting authority, austere.

"Thanks. I'll back porous plaster," "That's all right. The porous plaster is backing me," rejoined the sporting authority, who may be pardoned, under the circumstances, for feeling somewhat stuck up.—Chicago Tribune.

Odd Fellows Elect Officers.

Springfield, Ill., Nov. 24.—The Patriarchs Militant, the military order of the Odd Fellows, department council of Illinois, elected the following officers for the year: President, John P. Elliott, Chicago; vice-president, William Holt, Chicago; secretary, Col. James Henry Harris, Chicago; treasurer, John P. Elliott.

Scandal to Be Investigated.

San Francisco, Cal., Nov. 24.—The United States transport Tartar has given birth to so many scandals that the war department has suspended the third investigation, now under way, and ordered a special examination into the case by a commission direct from Washington. Gen. Shafter has received instructions to drop the case until the commissioners arrive, and it is announced they will make an exhaustive search for facts. It is not known how many officers constitute the commission charged with the last service.

"Kid" McCoy's Health Gone.

New York, Nov. 24.—"Kid" McCoy may have fought his last battle in the prize ring. Yesterday's sensational report that he had collapsed under his sharp training at White Springs is confirmed. The fight between McCoy and Peter Maher, scheduled for Dec. 11, is indefinitely postponed. The physician attending the pugilist says McCoy cannot fight for a year at least, if at all. McCoy does not take kindly to this opinion, and says his trouble is only temporary.

Probing the Boodle Charges.

Lansing, Mich., Nov. 24.—The grand jury that is investigating alleged legislative boodling listened Thursday to testimony substantiating the details of the \$20,000 law book scheme which failed to go through because the principal parties to the deal endeavored to keep all the money themselves instead of dividing it. This evidence was in the shape of correspondence. It is believed that at least three persons will be indicted.

Will Pay the Battlefield.

Peoria, Ill., Nov. 24.—The battlefield of Breed's Hill, south of Kenosaw mountain, Tennessee, where the Fourteenth army corps made such a brave charge to victory during the civil war, will soon be purchased by the survivors of the Eighty-sixth regiment of Illinois volunteers. The regiment will improve the battlefield and ask the state to erect a monument, and it will then be turned over to the government as a national park.

Emptied the Bank Vault.

Janesville, Wis., Nov. 24.—The bank of Milton, at Milton, three miles north of this city, was entered by burglars Thursday morning. The vault was broken open and \$300 in cash, \$100 in revenue stamps and \$1,720 in coupon government bonds taken. The time lock prevented the cracksmen entering the safe, which contained between \$8,000 and \$10,000.

To Promote Three Officers.

Washington, Nov. 24.—It is reported here that President McKinley will reward the services of three distinguished volunteer officers by appointing and retiring them with the rank of brigadier-general of the regular army. The officers are Gen. Joseph Wheeler, Gen. Fitzhugh Lee, and Gen. James Wilson.

Evans May Run with McKinley.

Chattanooga, Tenn., Nov. 24.—The friends of H. Clay Evans, United States commissioner of pensions, have been feeling the political pulses of the Illinois men who are here dedicating their battle monuments. They wanted to know if Evans would be acceptable to Illinois republicans as a candidate for vice president. They declared Mr. Evans' name would surely be presented to the republican national convention by the Tennessee delegation, referred to the large vote Mr. Evans received for the vice presidency in 1896, and argued that his administration of the pension department had brought credit upon the McKinley administration. Mr. Evans refused to speak of the matter, but his friends in Chattanooga have placed his name on the list of vice presidential candidates.

Gen. Wood Goes to Washington.

Santiago de Cuba, Nov. 24.—In accordance with a cable order to report in Washington at the first opportunity, Gen. Wood, military governor of this province, accompanied by Lieut. Brooks, started for New York today. He says he does not know why he has been summoned, but suggests as probable a conference based upon his recent suggestion that the American troops should be withdrawn and replaced by Cuban troops, offered by Americans.

Used by British Soldiers in Africa.

Capt. O. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial." Roberts Expects to Serve.

Washington, Nov. 24.—Congressman Brigham H. Roberts reached Washington last night. He expects to take his seat in the house and does not believe that body will be influenced by the protests against his doing so, for the reason that the matter is clearly outside the sphere of the churches and because the whole agitation against him is based upon misrepresentation of facts and absolute falsehood. He also claims that the house is without authority to declare his seat vacant. Mr. Roberts denounces as false the charge that he now advocates polygamy.

Lebanon, Ind., Nov. 24.—The Central State bank, Lebanon, was placed in the hands of Receiver Charles W. McAdams of Williamsport Thursday. This is the last of the Dwiglins chain of banks, several of which failed several years ago. The Lebanon bank, it is said, never recovered from the difficulty which sent the others to the wall.

Copper Colored Splotches.

There is only one cure for Contagious Blood Poison—the disease which has completely baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison up in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good, I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

Low Down, Short Turn DELIVERY WAGON.

Wagons of this class that we sell are ahead of anything ever used in the city. They are up-to-date in every respect—in usefulness, beauty and durability. One great point with these wagons is the square drop axle, letting the bottom of the box down to within twenty-one inches of the ground.

The short turn is another special feature, allowing one to turn around in an eleven foot alley.

The box is put up in many different styles for convenience as delivery wagons for milk, bakery goods, groceries, laundry, meat or any other business.

NOTICE the new delivery wagon of RICHTER speaks for itself.

MUCH depends on the Harness sometimes. The breaking of a trace or buckle at a critical moment may cause disaster.

Our Harness Is Dependable

The leather is good, the trimmings good, and the workmanship good.

Prices are good, too—for the buyer.

At the end of the war he labored for peace between the government and his people.

GIVE US PROTECTION

The bold "hold up" at the home of George M. McKee, the brutal assault upon Edward Connell, and the recent burglaries, have caused much talk, and many people are outspoken in the state ment that it is high time that Janesville had an adequate police force, with headquarters and a suitable patrol wagon. It is a well known fact that Janesville police officers are competent and energetic, but although they work from twelve to eighteen hours a day, they cannot patrol the city, not to speak of answering calls in the residence district. As a general thing it takes from twenty minutes to an hour or more to find an officer. When an officer is wanted, he is wanted immediately. Under the present system, merchants have little protection, and private residences have none at all.

Janesville people are practically at the mercy of thieves and are compelled to put up with annoyances in the way of loafers, intoxicated persons, noisy rowdies, etc., that would not be tolerated for a moment elsewhere.

The present system is worse than that employed by most villages. In a city of 14,000 people there should be a system that would enable a citizen to summon a policeman as readily as he can summon the firemen. The present system is unjust to all concerned. The officers are overworked, but the citizens cannot find them except after a long and tiresome hunt. And when the officer is found, he is at the same disadvantage as the citizen—valuable time has elapsed, and the lawbreaker has escaped.

The question of the need of a police force is not a new one, but, on the contrary, has been under discussion for many years. In 1892, Oscar D. Rowe, who was then mayor, sent a message to the council advising reorganizing and strengthening the police department. Four years ago, Mayor Frank S. Baines also made the police department the subject of a message.

When women are "held up" at the point of the revolver in their own homes, citizens are brutally beaten within a stone's throw of the postoffice; and burglary follows burglary, as was the case a short time ago, it is time that something was done.

Janesville needs many things, but one of the crying needs of the hour is an organized police force. It will cost some money, to be sure, but the aldermen and the tax payers cannot dodge or shirk the responsibility that rests on them to protect the lives and property of the people, at any cost.

The city now raises about \$70,000 per year in taxes. A force made up of a chief, three day men, three night men, a patrol wagon, a driver and lock-up keeper, and an alarm call system, might cost \$3,500 a year more than we pay now. This would be an increase of 5 per cent in taxation—it would add 5 cents on the dollar to everyone's taxes.

The heaviest tax paid by an individual at present, is about \$500. His increase would be about \$25—a sum that he could well afford to pay. The smallest individual tax payers pay about \$3. His increase would be about 15 cents. About 1,200 people pay all the taxes in the city, or an average of about \$58 each. Hence the average increase would be \$2.90 per year.

Would it not be worth the price? Lawlessness cannot be prevented, even by a thousand policeman, but who is not willing to pay five cents on the dollar to insure as efficient protection against violence, lawlessness and annoyance as is now given us against fire? Can we afford to take the chances we are now taking to save five cents on the dollar on our taxes?

Let us have an adequate police force, and let it be provided as soon as possible.

FORM AN ASSOCIATION

Janesville should have an advancement association composed of progressive, public spirited business men, run without dues or other annual expenses, and managed wholly in the interest of the city.

It should be a simple business organization without formality or red tape—one that will accomplish something. The membership should be confined to the men who are willing to work for

Janesville and take their chances as to reaping their profit in the years to come—men who will watch for the ugly head of the vandal selfishness and stamp it off.

It should include men of all trades, callings and professions, and thus represent all the interests of the city—not the interests of some few men who have schemes to float, or property to sell.

It should pay attention to the propositions of every firm or individual that might be induced to locate here, and not seek to secure only plants that employ 3,000 men—"great oaks from little acorns grow."

It should hold out every reasonable encouragement to every industry that can be made to listen to the story of Janesville's advantages—we do not have to pay a bonus unless we want to.

The phenomenal success of the mid-winter fair is an apt illustration of what can be accomplished by an organized effort and plenty of unselfish work—not in the expectation of immediate profit, but with the hope of future returns.

No city in the United States, of our class, can show a better record to an investor, or set forth more advantages as a home. Janesville has all the advantages necessary to place her in the front rank of Wisconsin cities. The residents of Janesville recognize these facts, but we must bring them to the attention of the outside world. In no way can this be done more effectively than through the medium of an association of business men—an association run on the right lines, and in the right spirit.

Good things "come high but we must have them." We must protect property from fire, and we must protect people—especially defenseless women and children—from lawlessness. We need a chemical engine, and we need a police force—even if we have to cut off some expense in other departments.

Five cents on the dollar added to every one's taxes will provide a police force as efficient as our present fire department. Are you willing to pay your share? Think it over. You may need the policeman yourself before you are twenty-four hours older.

Marinette youngsters claim the football championship of the state, but the youngsters of other cities refuse to accede. Why not measure up the length of the hair of the players and award the pennant to the lads with the bushiest adornment?

Aguinaldo has escaped from the trap, and is running for the next patch of timber. The woods are getting thinner, and the insurgent leader will soon find himself between the deep sea and the other horn of the dilemma.

Unwieldy economy is wasteful extravagance under another name. Just bear this fact in mind when you are discussing expenditures to protect the lives and property of the people.

The Fire Police, it will be remembered, only ask for one chemical engine, when, as a matter of fact, they deserve as many as they could provide storage room for.

He and Human Nature.

"I have been trying for nearly a year," he said, "to get a chance to ask you to be my wife."

"Ah, Francis," she replied, "I am glad to know that you are persevering, and I shall not let your constancy of purpose go unrewarded. I will be yours."

"Oh, but I suppose I ought to have explained first," he made haste to answer, "that now the chance is offered I haven't any desire to accept it. What a queer thing human nature is, isn't it? People are always longing for that which they do not possess, and when they finally get it, or have a chance to get it, they don't want it."

She was too busy looking hard at nothing to make any reply.—Chicago Daily News.

New Fire Proof Material.

A new fire-proof material has recently been invented by a Swiss engineer which is called "papyrisite" on account of paper pulp being one of its leading constituents. It will make a solid, impermeable and jointless roof or floor, and is claimed to be absolutely fire proof. It is also a non-conductor of heat, and while hard as stone, has a soft feeling to the foot and is quite noiseless. Two hundred and twenty pounds of the material will cover an area of 91½ square feet, with a layer 4 inches in thickness. It is mixed wherever it is to be applied, and hardens and dries twenty-four hours after spreading.

Feeble Kidneys.

In health the kidneys strain all impurities from the blood. Diseased, they allow the poisons to accumulate. Weak kidneys come from weak stomachs. Build up the stomach with Hostetter's Stomach Bitters, and the kidneys will be as good as new. The Bitters also cures constipation, indigestion, dyspepsia, biliousness, nervousness, and general debility. See that a Private Revenue Stamp covers the neck of the bottle.

AMATEUR MASSAGE.

Hints For Those Who Would Save Professionals' Fees.

The physical director of the University of Pennsylvania is credited with advice by following which the average person may get all the benefits claimed for massage and save the fee of a masseur at the same time. Among his hints, as briefly summed up by an exchange, are the following:

Manipulation may consist of stroking the body with the palm of the hand, slapping the body with the open hand, beating it with the closed fist, striking it with the hand at right angles to the body, so that the edge corresponding to the side of the little finger comes into contact with it; kneading the skin, muscles and tendons; grabbing the skin and muscles and squeezing them, and making combined digital pressure over the surface of the body in different regions.

The friction produced by rubbing may be either rectilinear or circular. It is customary for the right hand of the manipulator to be used for the right hand and foot, and the left hand for the left hand and foot of the patient, if the rubbing be applied with one hand. Both hands are used for the back, loins, abdomen and chest. The upward stroke in rubbing should always be more intense than the downward, and the stroke should extend over the whole surface, from joint to joint, exercising great care not to chafe the skin. More danger of this arises in making the upward stroke than in making the downward.

The rubbing should not last so long that fatigue will result. Further, too rapid rubbing will frequently cause pain by heating the skin too quickly, causing the hairs of the body to stick to the manipulator's hands, giving as a final result a pulling of these hairs. Rubbing should never be begun strenuously at the outset, but should be started slowly and gently and gradually increased, so as to be adjusted to the individual's feelings. Persons taking general exercise should take a rub after their bath. In this way they will not only cause the blood to circulate again through all parts of the body, but will also prevent or overcome any soreness or stiffness that may be present.

Muscles when rubbed for an injury should always be rubbed from their insertion to their origin. Rubbing should in a general sense begin from the extremities and extend toward the trunk. This is in order to assist the returning currents of the circulation. A rotary movement may be combined with an upward and downward, and this often relieves one of the severest kinds of stiffness.

Ordinary rubbing will do very well for those who exercise and others who haven't enough time to make a thorough treatment of massage. Rubbing may be alternated with pinching, beating and kneading, and frequently from one or more of these combinations more good results than if rubbing alone had been employed.

Fur and Feathers in Millinery. Fur hats are to be much worn, and rough felt toques that almost look like folds of heavy cloth are prominent.

SMART WINTER HATS.

among the importations. Round hats, entirely of feathers, are another theme. So says Vogue, from which illustrations of two smart winter hats are reproduced.

The subtle tailed confection has a foundation of blue taffeta in stitched folds, with a large knot of bisque velvet and an ornament in gold and rhinestones in front. The other decidedly chic affair is of black panne velvet, with draped ends of Persian bordered satin antique tied in front by soft knot of same material, caught, with buckle of gold and rhinestones. Grebe breasts of white form the brim.

Conundrum Salad.

Among the various ways in which the new woman tries to surprise her luncheon guests Good Housekeeping tells of this original feature: Each guest drew from among the salad leaves with which she was served a difficult conundrum. Passed from hand to hand around the table, with a small book and a pencil, each guest under her name transcribed her answer to the conundrum. At the close she who guessed the greatest number of answers received a small prize.

BOWER CITY POOR ENJOY PROSPERITY

SUPT. OF POOR S. B. KENYON
MAKES REPORT.

Not in Fifteen Years Has Such Little Assistance Been Extended as This Winter—Good Times and Plenty of Work the Cause—Mary Kimball to Prepare a Thanksgiving Meal.

Stephen B. Kenyon on the first day of January, 1900, will have served the city of Janesville and Rock county fifteen years as superintendent of poor. During all these years never was so little money expended in caring for the poor of Janesville as has been spent during the past year.

Prosperity and plenty of work for all who would labor is given as the reason for this little outlay of cash in behalf of the poor of Janesville.

During the past three months ending November the city of Janesville has purchased for the poor \$90 worth of groceries, four and one-half tons of coal and six cords of wood.

An Appeal from Miss Kimball
Mary Kimball, the city missionary, makes the following appeal to the kind hearted and sympathetic citizens of Janesville to provide a Thanksgiving dinner for the poor and indigent:

"Miss Kimball, me and little sister haven't had a speck of dinner; can you give me something to eat to keep me from starving? My mamma hasn't got nothin' in the house to eat."

Such are some of the utterances frequently heard at the mission, and many more of like character could be cited. Now I propose upon Thursday, November 30, to serve Thanksgiving dinner to those of whom Jesus said, "Of such is the kingdom of heaven," and who, seldom, if ever, during the entire year, know what it means to sit down to a good square meal in their own home.

Friends, were you to go about our city, as I do, your hearts would be filled with sorrow at what you would see and hear. You would be surprised that scarlet fever and diphtheria are not more prevalent in our city than they are at present. You would find in the various alleys of our city, many of these little ones, who have a very large place in the loving heart of our Christ, filling baskets with garbage found there, carrying to their homes that which is unfit for dogs to eat.

Thanking the many kind friends who have in part assisted me in making glad the hearts of these precious jewels, I again ask the co-operation, in the name of Him who had said, "Inasmuch as ye did it unto one of the least of them, ye have done it unto me." Ladies, please bake and cook more than you need and send to the Mary Kimball Mission, 106 South Jackson street. Farmers and merchants, send sugar, coffee, vegetables, fruit, fowls, and in fact, anything will be gratefully received. If you cannot send food, send cash, with which food can be purchased.

In His Name,
MARY KIMBALL,
City Missionary.
The Associated Charities.

The ladies of the Associated Charities have prepared a list of families of deserving poor containing from one to five children. Any charitable person or society desiring to supply such a Thanksgiving dinner can procure their names and address by calling on W. G. Palmer at the drug store of Palmer & Sarasy.

Blanch them and take off the little bloody fibers, cut into two pieces each and soak them in a mixture of white wine and vinegar, etc., for an hour; put them into a stewpan with some oil and gravy and stew them softly about half an hour; boil your rice in water a few minutes, strain it off and stew it in broth till it is tender with a little salt and a bit of mace. Dish up the brains and pour some sauce to the rice square in tinned butter, strain it over for serving at table. When you procure two or three pairs of sweetbread, they make an excellent dish done in the same manner.

Members of the Senior class of the Janesville High school visited Beloit College this afternoon, where they inspected Greek statuary. Prof. Wright favored the visitors with a lecture pertaining to Greek work, which proved most interesting and instructive.

The local delegation left at noon over the Chicago, Milwaukee & St. Paul railroad, and will return this evening. They secured a fare and a third rate, and were accompanied by Miss Carrie Zeininger, Miss Paulson, Prof. John Arbothnot and Prof. Dixon. DARING ROBBERS ELUDE THE POLICE

LOCAL OFFICERS HAVE MADE
NO ARRESTS.

What Clews They Secured Seem to Have Been of Little Use—Milton Blacksmith Identifies His Rig Found in Janesville—Lone Highwayman Still at Large.

Benjamin Ballard of Milton, has identified the horse, wagon and harness that was found in Janesville yesterday morning, as his rig. Now the police are positive that the men who robbed the bank at Milton drove to this city after securing the booty. Here it is thought they boarded an outgoing train bound for Chicago. Sheriff Appleby and Chief Hogae stated today that they were still in the dark as to the real robbers.

They had secured several valuable clews but at a late hour this afternoon no arrests had been made. Officers in many of the surrounding towns have been notified.

The lone highway man who with revolver in hand caused terror at ex-Alderman McKey's residence yesterday, is still at large. Several persons have notified the police of seeing a man answering the thief's description, but at a late hour this afternoon, he had not located.

NEWS FROM THE COUNTY

RICHMOND

Richmond, Wis., Nov. 24.—Although we have had the favorable kind of weather this fall, many farmers have a great deal of corn to husk yet, owing to a lack of help. Those who were in hopes of seeing the meteors were disappointed as the night was too cloudy. An auction sale of western bronchos was advertised in Whitewater a few days ago, which several from this place took advantage of, as evidence Howard Peterson, Fritz Behlman, Will Behlman and Tenu Johnson have a broncho apiece, but all think by this time that our home grown colts are just as good as western bronchos and much safer to handle. It is generally understood that a movement is on foot to close the business houses of Whitewater at 6 p. m., which, if carried out, will deprive the farmer of many household necessities and provisions that would be bought if he could go to town of an evening after chores. It is also understood that the White water merchants consider the movement unworthy of consideration, as it would mean a great loss to them. News has reached here that John Pemberton and family of Minnesota, formerly a resident of Richmond, will return to Whitewater, as he has purchased a house and lot in that city. Mr. and Mrs. Frank Behlman are at home to their friends on his father's farm, vacated by John Crapps, where they moved last Monday. Mrs. H. Dunbar of Johnston Center, visited her parents at this place last week. Mrs. Ella Yorkie of Johnston Center, visited her parents at this place the first of the week. G. M. Holbrook is contemplating having another dance in the hall in the near future. The last one being so successful, another is asked for. Miss Lottie Stoller is spending a month with her sister, Mrs. Whitmurch, in Chicago. The recent heavy rains are looked forward to as a benefit to the almost dry wells in this vicinity. Thomas Good-year is said to have bought the place worked last season by Mr. Oakley, and owned by a Janesville real estate dealer, but the Janesville man is having some trouble in having Mr. Oakley vacate the premises, through some misunderstanding. Mr. Oakley claims he has possession of the place another season. Chas. Mack had his corn husked with a shredder. Mr. Woodstock opened school again last Monday morning for the fall term. Albert Wont, the blacksmith, has some full blooded Plymouth Rock roosters to sell, for which he asks 50 cents apiece. He also has some full blooded White Brahmas.

CAINVILLE.

Cainville, Wis., Nov. 24.—Mr. and Mrs. Elger have returned from their wedding trip and for the present will reside with Mrs. Elgers' mother. Don't forget the Loyal workers convention commencing Saturday evening, Nov. 25 and holding over Sunday. An interesting program is expected. Frank Chase's broncho that he purchased at the broncho sale at Footville was so wild that it plunged around in the barn, hurt itself, and died. Frank thinks he has had enough bronchos for awhile. David Andrew's condition remains about the same. His friends hope for a speedy recovery. Little Charles infant son of Mr. and Mrs. Kopka died Thursday and was buried Saturday. Elder DeVere will commence his pastoralate next Sunday morning in the A. C. church. Cainville school commenced Monday after a two weeks' vacation with Miss Clifford teacher. Quite a few of the tobacco raisers took advantage of the chance to take down the hanging tobacco as it has been in fine shape to strip. Clyde McLay was taken sick Wednesday night and a doctor had to be called. Mr. Haskin and son Bert, spent a few days in town stripping tobacco. Mrs. Gardner went to Janesville Thursday. C. McLay and B. Andrews spent a few days last week at the lake hunting. W. B. Andrews was in Janesville a few days last week attending to his official business.

DISGUSTED COUPLE FROM ILLINOIS

COULDN'T MARRY AFTER MAKING TRIP HERE.

Rockford Pair Not Aware That Wisconsin Had a Five Day Clause in Her Marriage Law—Clerk Starr Broke the News—Decided to Return to Their Homes.

Yesterday afternoon a happy looking couple walked into County Clerk Starr's office, both their faces fairly beaming with smiles. Mr. Starr needed but one glance to convince him that it was a marriage license they were after.

The prospective groom then walked to the desk and informed Mr. Starr that he wanted a license. He said that his name was E. F. Cone of Rockford, and that his lady escort's name was Mrs. Ida Youngberg, and that her home was also in Rockford.

After the license had been made out, Mr. Cone discovered that in Wisconsin he could not get married inside of five days. He then stormed about the office at such a rate that Clerk Goldin and County Treasurer Thorpe locked their office doors, fearing violence.

After Mr. Cone had quieted down, he informed Mr. Starr that he thought the Wisconsin marriage law nothing short of an outrage, and that better treatment was accorded couples in Illinois.

On the 6:30 o'clock train the wiser but much disgusted couple left for Rockford as Mrs. Ida Youngberg and E. F. Cone.

..LATE NEWS BY TELEGRAPH..

VICTORY DEARLY PURCHASED

Gen. Methuen Debeats the Boers,
but Loses Heavily.

ACTION FOUGHT NEAR BELMONT

British Commander, in His Report of
the Battle, Claims the Enemy Suffered
Severely—Rumor That Gen. White Has
Captured Boer Artillery.

London, Nov. 24.—Lord Methuen, whose duty is the relief of Kimberley, fought his first battle yesterday near Belmont. In an official report received from him by the war office Lord Methuen claims a decisive victory, but reports his losses at some 250, as follows: Killed, three officers, forty-six men; wounded, twenty-two officers, 130 men; missing, twenty-two.

Lord Methuen, following the example of all other British officers after engagements, reports large Boer losses. He also claims he took forty prisoners and a large number of horses, cows and Boer ammunition. The latter he destroyed.

He admits that the Boers fought with courage and skill, and discounts criticism for his own heavy losses by saying that if he had attacked later the British casualties would have been far heavier.

The exact size of the two opposing forces is unknown here. The supposition is, however, that Lord Methuen had about 10,000 men, while the Boer column was somewhat smaller.

The attack was made at daylight and was carefully planned beforehand. The Boers were well entrenched on three connecting hills. These, Lord Methuen claims, he took with bayonets in succession, the last assault being preceded by a heavy shrapnel fire.

Judging from the list of casualties, all three charges were led by the Grenadier guards.

Lord Methuen says his infantry behaved splendidly and was ably supported by the naval brigade and artillery.

The next fight will probably be at Modder river, where the Boers are supposed to be in somewhat stronger force than they were at Belmont.

The scene of yesterday's battle is about fifty-six miles south of Kimberley at the same spot where Col. Keith-Falconer and Lieut. Wood were killed.

A reconnaissance was conducted yesterday by Gen. Gatacre and French showing that the Boers are in considerable strength northwest of Cape Town. In fact, it points to a Dutch rising of considerable magnitude in Cape Colony. Gen. French had three men wounded. A Cape Town telegram from the general commanding the lines of communication says it is reported that the Boers are moving from Natal to the vicinity of Bloemfontein.

Lord Methuen's victory is of special importance, because it is the first blow dealt by the British forces, acting purely on the offensive, and a part of the development of the British plan of campaign.

It will doubtless open up the road to Kimberley, at all events as far as Modder river, where the advance column will again probably be opposed.

Further details of the fighting will be anxiously awaited by the British public, although it is already clear the victory is decisive.

Serious work along the western border of the Free State is expected from now on. It is apparently the intent of Methuen to press forward toward Kimberley as rapidly as possible, and determined opposition by the Boer forces may mark every day of the advance.

Gen. Gatacre, in the Orange river district, is also believed to be on the move, his advance being announced to begin yesterday. Just what course he will pursue is not known and his action is said to be prompted in a measure by the unrest of the residents of the northern Cape Colony towns.

REPORT GREAT VICTORY FOR WHITE

Commander at Ladysmith Captures Many
Boer Guns.

London, Nov. 24.—The Morning Post prints the following from its correspondent in South Africa:

"Pietmaritzburg, Nov. 23.—We have received a rumor here from Dutch sources to the effect that our forces recently inflicted another disastrous defeat on the Boers around Ladysmith. Nearly all the enemy's large guns are reported to have been captured, and the Boers are said to have been completely demoralized. The rumor is unconfirmed, but the Dutch in the district appear much depressed, so that there may be some truth in it."

Durban, Nov. 24.—The Natal Times says: "During the night attack on Sunday Gen. White captured several Boer positions, with guns and much material."

Boers Shelling at Estcourt.

London, Nov. 24.—The sound of heavy firing in the direction of Estcourt has been heard at Mool river camp and probably Gen. Hildyard's force is being bombarded by the enemy and an attempt is being made to discover its strength. Gen. Buller has gone to Natal in the Mohawk and is expected back again at Cape Town shortly. The journey, however, may indicate that he considers the situation in Natal serious.

The presence of a considerable num-

ber of guns and heavy howitzers seems to indicate that the Boers are moving south in considerable force, and it is probable that this is a large detachment from Gen. Joubert's army before Ladysmith. Gen. Clery is, however, supposed to have an equal or superior force at Pietermaritzburg, though he may be inferior in artillery, of which he has only eighteen guns.

He has been strengthened by 800 of the outlander infantry, and will also be re-enforced by troops from the Cephallonia, Payonia, and Goorkha, which will soon reach Durban.

Mowing Down the British.

London, Nov. 24.—The New York Journal correspondent cables: "The total British losses to date in South Africa, including those suffered by Gen. Methuen's column, are: Killed, 286; wounded, 1,011; prisoners and missing, 1,089; total, 2,386.

"Although Lord Methuen reports a complete British victory at Belmont, there is a great deal of comment on account of his heavy losses and his failure to pursue and capture many of the Boers. It is believed that the victory is similar to those at Glencoe and Elandsdaagte, where the British captured the Boer position only to have the enemy come back in greater numbers."

Peace Rumors Discredited.

London, Nov. 24.—Wednesday's club rumor of peace negotiations was followed yesterday by a report from Cape Town that Transvaal officials have embarked at Delagoa bay as a deputation to Cape Town, but competent authorities here do not believe there is any serious intention on President Kruger's part to hold out the olive branch. In any case, it is said here, that even if it were true it would not prevent Gen. Buller from completing his march on Pretoria.

Attitude of the Basutos.

London, Nov. 24.—An official dispatch from Sir Alfred Milner to Mr. Chamberlain reports that thus far the efforts of the Boers to provoke an uprising among the Basutos or to start a civil war have been unsuccessful. The great concern of the Boers is the crops, which will rot unless Basuto labor can be obtained. Evidently the natives have been affected by the reports of repeated Boer successes, but their general attitude is satisfactory.

Italy Great Britain's Friend.

Rome, Nov. 24.—Menotti and Ricciotti Garibaldi, the sons of the famous Italian patriot, have written to the newspapers protesting against the demonstration summoned by the young Garibaldians in favor of the Boers. They declare that Italy must remain the friend of Great Britain, who helped her, particularly the Garibaldians, in the wars that culminated in Italian independence.

Peace Terms Are Defined.

London, Nov. 24.—The Daily Chronicle says: "We learn that the cabinet has decided that the basis of settlement in South Africa will be a united South Africa, modeled upon the Canadian plan. The details have not yet been settled, but it is practically certain that no terms of peace will be accepted by the British government short of the British occupation of Pretoria and Bloemfontein."

Joubert Has Wounded Arm.

Cape Town, Nov. 24.—It is reported that Gen. Joubert was wounded by a bullet in the right arm. The Bloemfontein Daily Friend says Gen. Joubert has been indisposed, but is now better.

Troops Sail from Queenstown.

Cork, Nov. 24.—Eleven officers and 517 men of the Royal Irish regiment sailed from Queenstown Thursday for the Cape.

Anti-Trust Decision Upheld.

Indianapolis, Ind., Nov. 24.—The case in which the Indiana Supreme court made its famous anti-trust decision was finally disposed of Thursday. The case was entitled The State, in relation of Frank H. Snyder, prosecuting attorney, vs. The Portland Natural Gas and Oil company. A decision of the Circuit court in favor of the company was reversed last June and Thursday a petition for rehearing was overruled.

Brothers Are Found Dead.

Stockbridge, Mich., Nov. 24.—Frank and George Bailey, prominent business men of this village, were found Thursday in the rear of their bicycle and jewelry store, both shot through the head. George was dead and Frank was dying. It is thought that Frank, who had been under a doctor's care for several days with a mental trouble, shot his brother and then himself.

France Favors "Open Door."

Paris, Nov. 24.—After a heated discussion among prominent statesmen the foreign office has decided not to pursue the idea of expansion of territory in China. Minister Delcasse favors the adoption of the open-door policy along the same lines as that of the United States.

IN MEMORY OF BRAVE DEEDS

Illinois Soldiers' Monuments Dedicated at Chattanooga.

SENATOR CULLOM'S SPEECH.

Gov. Tanner Accepts the Shafts in the Name of the State of Illinois, and Consigns Them to the Care of the Federal Government.

Chattanooga, Tenn., Nov. 24.—At 10 o'clock Thursday the exercises of dedicating the 197 monuments and markers of the state of Illinois on the battlefields surrounding the city were held at Orchard knob, the site of one of the principal memorial shafts and famous during the civil war as the headquarters of Gen. Grant. It is estimated that more than 1,000 residents of Illinois and at least 3,000 Chattanooga people attended the exercises and remained until the close of the program.

Among the distinguished visitors were Senator Cullom, Gov. Tanner and staff, Commissioner of Pensions H. Clay Evans, Gen. H. V. Boynton, representing the secretary of war, and a large delegation from the confederate camp of this city. The exercises opened with music by the Fifth regiment band of Atlanta, Ga. Then followed prayer by the Rev. Dr. William Pettis of the Episcopal church of this city. Major James A. Connolly delivered the speech presenting the monuments to the governor of Illinois on behalf of the Illinois commissioners.

Gov. John R. Tanner of Illinois received the monuments, delivering an eloquent speech of acceptance and in turn presented them to the government.

Gen. Henry V. Boynton, president of the Chickamauga park commission, received the monuments in behalf of the secretary of war.

Brief informal addresses were made by others of the visitors, among them Senator Shelby M. Cullom of Illinois, who included in his speech a eulogy of Major Logan, recently killed in the Philippines. Speaking of the present war the senator said: "All serious talk of imperialism, or of un-American restriction upon the growth of our wonderful country is gratuitous and uncalled for. The extension of American boundaries, wherever the American flag has a proper and just right to float, is simply a development of our Americanism. It is as proper and legitimate for this country to grow and expand as it was to be born. It was born to live, and it lives to expand its sphere of usefulness."

Shanghai, Nov. 24.—Advices from Tien Tsin say that the negotiations of the American syndicate regarding the Hankow-Canton railway have been brought to a successful conclusion.

NOTHING IS BETTER

Impossible to Manufacture a
Better Remedy.

Wisconsin People Make Good Witnesses of
the Success It Has Achieved.

There can be nothing better for backache, nervousness, sleeplessness and all ailments arising from kidney disorders than MORROW'S KID-NE-IDS. It is impossible to manufacture a better remedy. KID-NE-IDS contain the very best ingredients that are good for ailments arising from the kidneys. The vast number of people in this city who have testified to the merits of KID-NE-IDS is sufficient proof that none of our claims are false.

Mrs. T. S. Johnson, 831 Harrison street, Beloit, Wisc., says: "I have been afflicted with kidney backache and other symptoms of disordered kidneys for some time past. During the continuance of my troubles I have experimented with kidney pills and other kidney remedies but did not get any relief until I used MORROW'S Kid-ne-ids. In a very short time I was greatly relieved. I continued to take Kid-ne-ids and I am being relieved of all my former troubles very rapidly. I think Kid-ne-ids a splendid remedy for kidney troubles."

Morrow's Kid-ne-ids are not pills but yellow tablets, and sell at fifty cents a box by all druggists and by The People's Drug Co.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield, Ohio.

MAKING BRITISH SOLDIERS.

How Mr. Atkins Is Induced to Take the Queen's Shilling and Become a Fighting Man.

BY LIEUTENANT H. R. GAHAN.

By a system wholly different from the one which we employed in raising an army to fight Spain the English are now putting their army on a war footing. In this country, the men who enlist during time of war enter the ranks with the full expectation of going at once to the front, and that is what they generally do.

But in England it is different. England does not send out "recruits" to fight her enemies. It is well she does not, both for the "recruits" and for England. The soldiers who have been sent to fight the Boers in South Africa are for the most part troops of several years' experience. Many of them

BRITISH RECRUITING SERGEANT.

have seen service in India or the Sudan. They belong to the line regiments which constitute what we would call our regular army.

Although England has an immense fighting force already under arms and well drilled, she cannot send out 70,000 men without enlisting others to take their places. With near home defenses and with restless Ireland to be kept in check she must constantly keep a great body of them in uniform. India alone requires a standing army of 125,000 men.

So the moment a line regiment is sent across seas a new one must be raised to take its place. This is why recruiting is now going on so merrily in England in spite of her nominal force of 750,000 fighting men.

Some of the recruits, it is true, may see service within a few months after their enlistment, but if this is done they will be brigaded with seasoned soldiers and used as filling to pad out the regiments.

Besides the regular line regiments, there are several kinds of soldiers reckoned as a part of England's army. There are the army reserves, composed of men who have served eight years in the ranks and who are not to be called out except in case of emergency; the militia, which is a sort of active reserve; the volunteers, who correspond more nearly to our national guardsmen than any others, and the yeomanry, whose exact status is rather hard to define.

It is the militia ranks which are now being filled. Now, the pay of a British soldier is much less than the \$13 a month which we give our fighting men in times of peace. It amounts to less than \$8 a month. There is also much work to be done, and the service is not extremely popular.

So the recruiting sergeant goes forth to induce men to join the ranks. His enthusiasm for the job is increased by the fact that for each recruit he brings in he is paid a bonus. For an ordinary recruit, fit only to join an everyday militia regiment, he is paid 60 cents. For bringing in a big, healthy fellow suitable for a regiment like the Scots guards he is paid \$1.25, and for extra well developed men, good enough to be put into one of the crack organizations, he is paid fancy prices.

So the British recruiting sergeant is a most affable and smooth talking personage. In private life he would make

HIGHLANDERS DRILLING RAW RECRUITS AT ALDERSHOT.

A success as a book canvasser or a real estate agent. He is tall, erect, broad of shoulders, deep of chest, supple of limb, with the bearing of a conqueror, tempered by melting geniality, and with an ideally persuasive tongue. Always in uniform and white gloves, with little cap a-tipt on his head, with baton twirling airily in his hand and continually in evidence, he plays a most

important part in the army system of his country.

He generally hunts in couples, and his chosen walks are either in the vicinity of some great barracks or in the poorer quarters of the town where he is located. Naturally more men are recruited in London than anywhere else. The favorite stamping grounds of the London recruiting sergeants are in the neighborhood of the Horse guards and in Trafalgar square, on the side fronted by the National gallery and St. Martin's church.

Those who take "the queen's shilling" in the neighborhood of the Horse guards are initiated into the service of her majesty at the recruiting depot of St. George's barracks, just back of the National gallery. It is the largest in Great Britain, and probably one-quarter of all the British recruits are there enrolled. Other large depots are located at Woolwich, Hounslow and elsewhere. In fact, there is a recruiting depot in every sizable town in all Great Britain.

It is to the credit of the English that crimping and the press gang are no longer necessary in order to keep the army ranks fairly well filled, but it is true that the recruiting sergeants for the militia and the ordinary foot regiments are sometimes obliged to resort to rather devious expedients. It is also true that a very large percentage of the recruits are picked up in city slums, where a glass or two of ale and a good jollying from a splendid fellow, like a recruiting sergeant, are far more likely than anything else to produce the desired results.

Recruits obtained in slum neighborhoods are youngsters out of work in the main, often without family ties and sometimes quite willing, if well persuaded, to get away from their current surroundings.

Very many of the men recruited in the more crowded sections of the cities go into the militia. It has been commonly supposed both in and out of England that the militia could not be ordered to do foreign service, but this is an error. The militia may be sent out of the country if occasion arise, and, furthermore, if its ranks be not

OFF TO THE FRONT IN WAR KIT.

filled by "volunteer enlistment," limited conscription may be enforced to that end. This has not been resorted to in 30 years.

In the regular foot regiments recruits from the English peasant class, or rather, as some one has said, "peasants deteriorated by two generations of life as mill operatives," are much in evidence. The recruit of this class in general is a somewhat undersized, narrow chested, faxen haired lad of what would be termed rather defective education in America and with abnormal appetites so far as ale and tobacco are concerned.

The British "crutty" of this type is decidedly inferior in body, mentality and general training to the average American regular army recruit in time of peace or volunteer as accepted while the war with Spain was on, but probably not below the bodily standard maintained during the greatest demand for soldiers in civil war times.

There has been much criticism by the English themselves of the low physical standard of the army recruits, and more than one British authority has referred to them as a lot of "half grown boys." A British officer of high standing, who admits that many immature youngsters find their way into the ranks, says this is a good thing on the whole. His theory is that the recruit who begins his service before attaining full growth will soon "fill out."

It should be understood that not all British recruits are of inferior physical types. Men from every walk of life enlist in her majesty's service, and many of them are splendid chaps bodily.

The preliminary training they receive at the barracks where they are enlisted, but the great finishing place, where soldiers are now being turned out by the thousands, is at Aldershot. There the final touches are put on which transform the slouch picked up in Whitechapel into the trim "Tommy," who would pass unrecognized among his fellows of a few months before and would hardly know his old self could he meet him.

Taking Refuge in Madrid.

Madrid, Nov. 24.—The daily aggravation of the political situation in Spain has led to a censorship stricter than ever. It is easy to foresee serious complications the first fortnight in December. The feeling of insecurity in the provinces is intensified by the general revolt against the government's taxation scheme, and the richer classes are taking refuge in Madrid.

Ship Smashes Speed Records.

Newcastle-on-Tyne, Nov. 24.—The new torpedo-boat destroyer Viper, run by turbine engines, Thursday broke every existing marine speed record. On her second trial-trip she tore through the water at the rate of thirty-eight knots an hour. This is approximately equivalent to forty-four and one-third land miles, or the speed of the fastest express trains.

To Send Troops to Cavite.

Washington, Nov. 24.—It is said at the war department that by the end of the present week Gen. Otis will receive re-enforcements to the number of 3,000 men. It is expected that the major portion of this force will be thrown directly into Cavite province, south of Manila, and will clean out the insurgents who have infested this region ever since the fall of Manila.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand good medicine. For sale by Smith's Pharmacy next to Post office, Kodak agents.

W. C. T. U. Is Still Divided.

Pittsburg, Nov. 24.—Coalition of the W. C. T. U. and the nonpartisan faction of the order is not yet in sight. The national executive committee has adjourned its annual meeting without bringing about the desired union. Both sides claim to be willing to merge, but when the question of abandoning principles that separate them arises progress stops immediately.

Chamberlain's Pain Balm Cures Other Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well. —Adolph L. Millett, Manchester, N. H. For sale by Smith's Pharmacy, next to postoffice, kodak agents.

If the Baby Is Cutting Teeth

Be sure and use the old and well tried remedy Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhea. Twenty-five cents a bottle.

As to Spanish Prisoners.

Washington, Nov. 24.—The Spanish minister, the Duke d'Arcos, called at the state department Thursday to learn the prospects for the release of the Spanish prisoners held in the Philippines. Thus far, nothing has been heard as to the measure of success attending the dispatch of a message from President McKinley to Aguinaldo concerning the Spanish captives.

300 Miners Imprisoned.

Leavenworth, Kan., Nov. 24.—By the breaking of the main hoisting wheel at the state penitentiary coal mines Thursday, over 300 men are imprisoned 700 feet below the surface. The men can only be taken up through the air shaft, which is in a dangerous condition.

The Price of a Suit

Of clothes is not always the true expression of its worth. It is equally true that a really good suit of clothes cannot be sold for less than a certain sum. If you pay less you get less, and when you get down to a certain point what you get is worth nothing and your money might as well be thrown in the street.

Clothes bearing our label are

T. J. ZIEGLER.

the best made in the world.

The price range is adapted to every purse, and each price represents just what twice the amount would buy of made to measure clothes. In buying these garments you get sterling value for your money, and the price is held down just as low as good clothes can be made for. If you seek to save a few dollars by cheaper garments, you get worthless ones and all is wasted. We know this so perfectly well that without hesitation we say that we will give you back your money if you are dissatisfied.

Suits, \$10 to \$25. Overcoats, \$10 to \$40.

"King of Tompkins County" APPLES!

Of all the fine varieties of Apples grown in this country, the "King of Tompkins County" is the most popular and commands the highest price. This Apple has won for Tompkins County, N. Y., the reputation of being the most famous Apple growing

district in the United States. We have a good supply of this celebrated "King" Apple, which we will sell by the barrel at lower prices than they can be bought for at wholesale in Chicago. Other choice varieties of hard winter Apples which we have for sale by the barrel are:

Northern Spies,

Rhode Island Greenings,

Spitzenbergs, Baldwins,

Golden Russets.

This market heretofore has been so flooded with early picked, wormy Apples, of poor keeping qualities, shipped in from Michigan that many people have become discouraged from buying Apples by the barrel. We feel confident that an inspection of our stock will convince them that we have the quality of fruit they have been looking for.
